LION FANCY GOLDEN SEEDLESS RAISINS
SPECIFICATION SHEET

General Specifications

Lion Natural Seedless Raisins are produced from highest quality California Seedless Grapes employing the most advanced quality and food safety methods available. The raisins will conform to all specifications for purity, identity, and foreign and extraneous matter as prescribed by FDA regulations and USDA requirements as can be achieved by Good Manufacturing Practices (title 21 CFR 110) per Lion Raisins’ sampling and inspection procedures as follows.

**General Physical Property Tolerances**

Raisins shall be of USDA Grade A for cap stems (max 15/lb) and no more than 1 loose stem per 60 pounds of product (10 x Grade A), and Grade B or better for maturity.

Cap Stem means woody stems exceeding 1/8 inch in length, which attach the raisins to the branches of the bunch.

Grade B for maturity means 1.5% Substandard/Underdeveloped for Select and 3.0% for Midget (as defined in the US Standards for Grades of Processed Raisins). Stem means a portion of branch greater than 2 cm in length and greater than 3 mm in diameter. Raisins shall be of USDA Grade B for damaged berries (max 3%) and sugared berries (max 10%).

**Vegetable Oil Coating**

0.25 - 1% of high grade, Kosher, GMO-free, Trans-Fat Free vegetable oil to be applied upon customer’s request for free flowing purposes only. Not typically used in retail packaging production.

**Storage Conditions**

Optimum storage conditions should be 45 degrees Fahrenheit (10 degrees Celsius) with 50 – 60% humidity. Optimum storage conditions will facilitate recommended shelf life of 12 months.

ALLERGEN STATEMENT

The following raisin products are produced at Lion Raisins:

- Natural Seedless
- Flame
- Zante Currant
- Golden
- Raisin Paste

With the exception of Golden Raisins, the above products do not contain any allergens and do not use any ingredients containing allergens.

Golden raisins undergo treatment with sulfur dioxide which is a known allergen. Lion Raisins ensures that the amount of residual SO₂ is within the acceptable tolerance.

To ensure no cross-contamination of SO₂ occurs, Lion Raisins manufactures Golden Raisins only on designated days and never concurrently with other raisin products.

Food and Drug Administration (FDA) requires food manufacturers to list the eight most common ingredients that trigger food allergies. These eight foods are:

- Milk
- Eggs
- Peanuts
- Tree nuts (such as almonds, cashews, walnuts)
- Fish (such as bass, cod, flounder)
- Shellfish (such as crab, lobster, shrimp)
- Soy
- Wheat

LION RAISINS
CONTINUING QUALITY FOOD GUARANTEE

The undersigned, Lion Raisins (Seller), located at, 9500 South DeWolf Avenue, Selma, CA in the State of California, United States of America, does hereby warrant and guarantee unto:

Valley Bakers Association (Buyer), of

California Seedless Raisins, that the articles comprising each shipment or other delivery hereafter made by,

Valley Bakers Association (Buyer)

are hereby guaranteed, as of the date of such shipment or delivery, to be on such date not adulterated or misbranded within the meaning of the Federal Food, Drug and Cosmetic Act as then in effect, and not an article which may not, under the provisions of Section 404 and 505 of the Act, be introduced into interstate commerce. However, provided that the Buyer undertakes to save the Seller harmless from any liability under said Act for any misbranding arising out of the use of Buyer's cartons, wraps, or labels.

It is understood that the guarantee contained herein is given in lieu of all other guarantees, specific or implied, with respect to adulteration or misbranding within the meaning of any Federal or State law or any regulation or ruling in connection therewith, and that it constitutes the sole guarantee of such nature given by the undersigned:
